To Whom It May Concern:

I have worked with Carl Bly for over 20 years. For most of that time, Carl and his team, as part of National Computer Services, have provided computer programming and data support for many of our companies. Having a deep knowledge base in the IBM midrange series of computers, Carl and his team were uniquely qualified to support companies like Rent-A-Wreck, Avesis, United Healthcare, The NY Hotel and Restaurant Workers Union and several others.

The IBM midrange series has historically been the backbone to our data processing functions. We were confident that Carl and his team were in charge of completing mission critical tasks accurately and on time. I would recommend you consider NCSc for your data processing needs. If you would like to speak with me, please feel free to call. I can be reached at (410) 654-0358 x 148.

Sincerely,

Kenneth L. Blum II
Vice President
